FIELD LAB FULL (1-3 hours) **PARTIAL**: (60 minutes) **BOOTH DISPLAY**

Date(s) _____ Time(s) _____

Directions to the facility (use the back of this form if necessary)

INFORMATION

Presentation (both versions) (1) Availability to set up one hour before the starting time. (2) Two 8 ft. tables (or three 6 ft.)* located where the insects are to be viewed. The people should be able to go around all sides. (3) Access to an electric outlet within 15 ft. (4) Adults (3-4) to monitor the display tables. (Everyone is excited, but the specimens are fragile.) (5) Seating so everyone can see the screen. (6) If the church has a PowerPoint set-up, the slides must be controlled from the position of the presenter.

Lab (1) Availability to set up one hour before the starting time. (2) If field work is included it is the responsibility of the scheduling organization to obtain parental permissions. (3) One table (minimum 6 ft.)* for the presenter and enough tables for participants if field work is scheduled. (4) One adult assistant for every five students. (5) In addition to the standard stipend, the organization will need to pay for (or prepare) copies of the *Lab Handbook prior to the lab*.

Hands-On Program and Booth Display (1) Availability to set up one hour before the starting time. (2) One 6 or 8 ft table*. I can bring a small one of my own if no tables are available.

Stipend/donation (1) \$50 per program (\$150 per full lab). (2) Travel beyond 25 miles: round trip mileage at 50 cents per mile from Poca, WV. Tolls are extra. (3) Travel beyond a three hour drive: motel accommodations and meals. (4) Travel beyond a six hour drive: round trip plane ticket (at the risk of the host), motel accommodations, and meals. Only a small part of the insect collection can be transported. (5) Checks to be made to Karl Priest. (6) Full amount is due on date of presentation. (7) No local church or Christian group will be turned away if finances are an issue. (8) Love offerings, in addition to the per program amount, are welcome and help get the program to Christian groups with limited finances.

Non-church groups The presentation and lab can be suitably adjusted, however it will be made clear that the program is based upon creation science and that evolution is not true.

Presentation and lab details are located on the website and are to be understood prior to committing to a date. Questions are welcome.

*If necessary, smaller tables can be provided by The Insectman.
