

Foundations In Genesis Of Idaho & Oregon

~Mission & Belief Statement~

"For by Him all things were created..." Colossians 1:16

Our Mission is to develop a network of people who are committed and equipped to proclaim the inerrant Word of God beginning with Genesis and it's literal, six consecutive days of creation.

"For in six days the Lord made the Heavens and the earth, the sea and all that is in them..." Exodus 20:11

We believe that the Bible is the revealed Word of God, and because it is God-inspired throughout, all it's assertions are historically and scientifically accurate without error.

The account of origins as described in Genesis is a factual presentation of historical truths. All basic kinds of living things (plants, animals, and humans) were made by direct creative acts of God during the creation week within approximately the last ten thousand years or less. On the sixth day of that week, God uniquely created Adam and Eve in His image. All subsequent men and women are descendants of these first two human beings.

We believe that the great Flood described in Genesis, during the time of Noah, was a literal historic event, worldwide in its extent and effects.

The account of the special creation of Adam and Eve and their subsequent fall into sin, is the basis of our belief in the necessity of a savior for all people. God, the father, provided this salvation for all mankind through Jesus' willing sacrifice on the cross.

We believe the Bible is God's message to mankind and is the highest source of truth and wisdom.

Foundations In Genesis of Idaho Board 2010

Chairman: Brent Carter **Vice Chairman:** Jerry Jaeger
Winston Tilzey Joyce Tilzey Kathy Harris
Jennifer Jackson Doug Bennett Roy Gould
Mark McCutchan

Founded in 2000, Foundations In Genesis of Idaho is a non-profit organization staffed by volunteers, both scientists & laypeople. Unique, volunteer opportunities are available. All contributions are tax deductible.

A Free Will Offering Will Be Taken At Both Seminars

'GET BUGGED' Insect Workshop
Saturday MAY 29th 8AM—12PM Nampa
Pre Registration Req. ~ ~ Check our website or call us

ABOUT THE TOPIC:

Insects were designed to benefit mankind, Creation and bring glory to the Creator. As science has discovered more of the infinite intricacies of **insects** it has become clear that **insects** "bug" evolutionism. The study of **insects** will bring you many fascinating hours filled with amazing information, wonder & enjoyment. Although **insects** cause some irritations in life they truly are "GOOD". (Genesis 1:25) A general description of an adult **insect** is that it has three body parts (head thorax, and abdomen), six legs, and two antennae. The following are NOT **insects:** spiders, chiggers, Daddy Long-legs, ticks, sow (pill) bugs, centipedes, millipedes, worms (caterpillars are not worms), and snails. **Insects** live in practically every area of the earth.

ABOUT THE SPEAKER:

Karl Priest is a retired public school mathematics teacher from Andrew Jackson Middle School near Charleston, WV. He has a B.S. in education and an M.A. in school administration and has been an educator (K-9—including 4 years as a principal) for over 30 years. For the last five years of his full-time career, he demonstrated to his students that mathematics proves beyond the shadow of a doubt that evolution is nonsense. The students saw that the evidence clearly shows that every item associated with humans, animals and plants are Intelligent Designs and Intelligent Design is Science because it is observable by billions of people trillions of times, always has been, and always will be. He always let them figure it out for themselves and he allowed them to believe what they chose, but at least they were exposed to the scientific facts that extremists want to censor from the minds of government schooled students. After one lesson a student from an atheist family said, "Evolution is silly." Currently, as a substitute teacher, Karl has contact with more public school students than ever and takes advantage of every opportunity to provide them with the facts described above. In 1995, Karl began the formation of the Kanawha Creation Science Group in West Virginia.

MAY CHILDREN'S SEMINAR

**THE CHILDREN WILL LEARN & ENJOY ALL ABOUT INSECTS
FROM OUR SPEAKER KARL PRIEST**

Childrens Program Description

When featuring a speaker geared for adults, Childrens Programs are offered **AGES 5-12** A Children's Creation Seminar accompanies each adult seminar. Our Children's Seminars present the same topic & information offered in the adult seminars & include: an interactive mini-lecture combined with demonstrations, songs, experiments, games, activities and snacks that **ALL** reinforce the topic. Critical thinking skills are encouraged. We have a grand time exploring theories learning about biology, geology, chemistry, studying fossils and more. **Please register 10 days prior to each seminar**

Pre-registration assists us in our planning. Late registrations are accepted

ENJOY OUR FELLOWSHIP TIME

Please bring finger foods for our fellowship time
